vitaly.dulenko@gmail.com

30 years old

Summary

I have been working with data-driven marketing companies, creating dashboards, websites, mobile apps, landing pages, promo videos, promo materials (print and online), logotypes and brand identity. I like all steps of design process — from ideation and research to wireframing, prototyping and final design. I'd like to be a part of product company that helps people and makes world better.

Experience

Senior & UI/UX designer / Team Lead at TrafficDNA

August 2013 – Present (3 years 7 months)

Creating marketing dashboards, mobile apps, websites (web, mobile), landing pages, promo materials (banners, promo videos), print materials (stands for exhibitions, leaflets, business cards, presentations), logotypes and brand identity.

As team lead I was mentoring and interviewing new employees, organizing design process inside team and communication with product managers.

Web-designer at Cupid plc

March 2012 – July 2013 (1 year 5 months)

Designing landing pages, websites (web, mobile) promo materials (banners)

Design, polygraphy at L-ars

August 2008 – March 2012 (3 years 8 months)

Working with polygraphy (design, printing, post-print processing), working with clients.
